Executive Summary

Mid-Peninsula Water District Celebrates 85th Anniversary

On Wednesday, September 24th Mid-Peninsula Water District held a ribbon cutting ceremony celebrating 85 years serving the Belmont Community.

Councilmembers Cathy Wright and Charles Stone attended the ceremony along with City Clerk Cook and City Treasurer John Violet. On behalf of the Mayor, Councilmember Stone presented the District with a proclamation recognizing the

District's many accomplishments and collaborative efforts with the City of Belmont. Here's to another successful 85 years!

Community Events

The first of a series of "Belmont Breakfast Speakers" sponsored by the Belmont Chamber of Commerce will be held this Wednesday, October 1st at Café Bliss. The no host breakfast begins at 7:30 a.m. with a presentation by Mayor Lieberman followed by a question and answer session.

On October 3rd and 4th NDNU will celebrate Homecoming. Special activities have been planned for the entire university community including an *Iron Chef Competition* featuring our Fire and Police Departments battling it out on the grill.

On October 5th, the Belmont Redwood Shores School District "Save the Music" festival will take place at Twin Pines Park. As in past

years the festival will have live music and great food to raise money for the performing arts and other programs at our local schools.

More information on all of these events can be found throughout this document.

Friday Night Lights – Carlmont High vs. El Camino October 10th 7:00 p.m.

We hope to see you at all or some of these event that keep our community strong.

Mid-Peninsula Water District Water Main Replacement Project on Belburn Drive

On Monday, September 8th, the Mid-Peninsula Water District started construction of a water main replacement project on Belburn Drive, from Notre Dame Avenue to Academy Avenue. Work is scheduled to last approximately 2 months. The working hours will be limited to between 8 am to 5 pm on weekdays, with no anticipated activity or noise outside this timeframe. During construction hours, please be aware of heavy equipment, construction personnel, and increased noise levels.

At certain times, no parking signs will be posted with specific times and dates. In addition there may be one lane traffic control in place so please expect delays if you travel in this area. Residents on Belburn will have access to their driveways at all times.

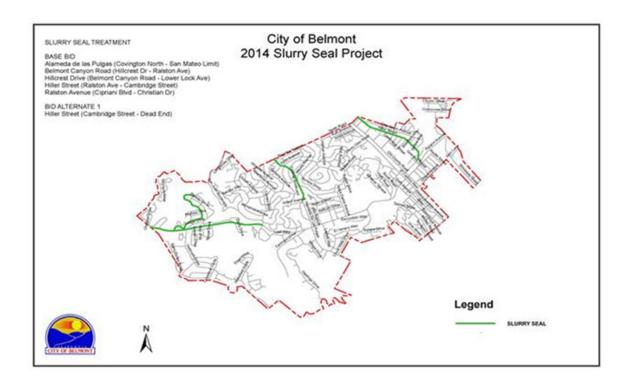

If you have any questions or concerns please contact **the Mid-Peninsula Water District's** onsite project inspector Mike Anderson at (650) 222-0922.

<u>Update- 2014 Summer Pavement Maintenance Slurry Seal Project</u>

Construction for the 2014 Slurry Seal Project is in progress.

Status	Location(s)

Marsten Avenue Storm Drain Repair Project Update

As previously reported the City's contractor, Trinet Construction, Inc .started construction on Monday, Sept. 22^{nd} . The contractor has removed the loose materials from the gully and the site has been prepared to receive the new storm drain pipe. A new High Density Polyethylene pipe (HDPE) will be installed as soon as the backfill is complete and the surface of disturbed areas will be restored for erosion protection. The progress of the project is ahead of schedule and is now anticipated to be completed by the end of next week.

If you have any questions about the project please contact the Public Works Department at (650) 595-7425.

Storm Division

- Swept 93 curb miles resulting in the reclamation of 9.28 tons of debris that will no longer find its way into the storm system
- Performed video inspections on 80.2 ft. of storm pipe
- Performed visual inspections of 206 storm drain inlets
- Performed visual inspections of 68 storm manholes
- Replaced 5 "flows to bay" decals
- Retrieved 1.97 tons of debris from creek inlets post-storm
- Cleaned 48 drain inlet tops resulting in 1.73 tons of debris post-storm.
- Inspected and cleaned 19 "hot spots" throughout the city (during and post-storm).
- Inspected and cleaned V-ditch behind homes on Hallmark Dr.
- Inspected and cleaned approx. ¼ mile of V-ditch along Water Dog Lake Road
- Trimmed and removed overgrowth from the sides of Belmont Creek at Harbor & El Camino/Old County.
- Took piezometer readings at Water Dog Lake; Lake Level 9.0

Sewer Division

- Inspected and cleaned 11 sewer pump stations
- The service truck (205) responded to 12 service calls
- Jetted (cleaned) 5,677 feet of sewer main
- The Closed Circuit TV (CCTV) van videoed 1,529 feet of sewer main
- Daily cleaning of the flushable wipes trap at the Ralston Ranch Pump Station
- Videoed 4 new service lateral connections to City main per Engineering request
- Videoed 2 private sewer laterals per resident request
- Performed 2 Manhole inspections
- Replaced jet leader hose on Vactor Truck
- Installed replacement Hydrogen Sulfide monitor in manhole for Pure Technologies
- Removed massive root from a manhole on Hastings Drive that was coming out of a 6" private lateral *(pictured below)*

Traffic Operations

- Weekly visual inspections for preventative maintenance of intersections
- Visual inspection of lighted crosswalks
- Fabricated 22 signs
- Replace 8 signs
- Remove graffiti from 2 locations
- Trimmed trees/bushes around signs to improve sight distance
- Provided logistical support for Belmont Creeks Coastal Cleanup at 6 locations
- Assisted Streets Division paving Waterloo 6 tons
- Banners: 2 down & 2 up
- Provided updated streetlight map of Shoreway, Sem, and Cormorant
- Responded to traffic signal malfunction at Ralston and Cipriani
- Provide support to the contracted Traffic Engineer for his coordinated signal plan to optimize peak flows on Ralston Avenue
- Attended and completed Work Leader Academy

Streets Division

- Marked out 21 locations for Underground Service Alerts
- Excavate at sinkhole on Middle Road at Davey Glen and exposed bad connection of private lateral
- Backfilled with new base rock, compacted, and topped with 1 ton of hot asphalt on Middle Road at Davey Glen
- Excavate at sinkhole on the 1500 block of Molitor and found a bad lateral tie-in. Plated excavation until homeowner makes repairs to the lateral
- Dugout alligated area of asphalt in front of 14 Waterloo Court, compacted the base, oiled the edges' and topped with 5 tons of hot asphalt
- Storm cleanup including clearing the creek openings on 6th and O'Neill and the end of Live Oak Way. Removed 2 tons of debris

CALIFORNIA COASTAL CLEANUP DAY- BELMONT CREEKS TO BAY

The Results Are In And YOUR Hard Work Is Paying Off!

A record breaking 154 volunteers collected 640 Pounds of trash and recyclables combined for Saturday's California Coastal Cleanup-Belmont Creeks to Bay. Volunteers included the Mayor, individuals, families and groups from all around including San Mateo, San Carlos, Redwood Shores, Half Moon Bay, Walnut Creek, Whittier, Piedmont, Belmont and even an individual visiting from Oregon. Some larger groups that participated were NDNU Lacrosse team, Scout Troops #44, #61 and #83, WRECO Engineering Consulting, and Belmont V.O.I.C.E.S.

Water Dog Lake, E. Laurel Creek, Belmont Creek and O'Neill Slough were all targeted cleanup sites. Some of the unusual items found were an IPod, a fire extinguisher dated from 1973, Christmas tree, car windshield, CB radio, Window coverings, baking pan, and a flip flop.

Each year, participants document the number of items collected on data cards during the cleanup. These numbers are sent to the County to help educate public, business and government officials about the seriousness of the global marine debris problems.

Here are the TOP 10 most collected items in and around Belmont waterways for 2014

Top 10 Items Found - 2014			
No. 1	Cigarette butts/filters	1,338	
No. 2	Food/snack wrappers	925	
No. 3	Caps/lids	462	
No. 4	Plastic bags/pieces	322	
No. 5	Straws/stirrers	260	
No. 6	Beverage bottles (plastic)	234	
No. 7	Beverage bottles (glass)	233	
No. 8	Beverage cans	203	
No. 9	Styrofoam	159	
No. 10	Paper bags/pieces	152	

Top 10 Items Found - 2013				
No. 1	Cigarette butts/filters 1,296			
No. 2	Food/snack wrappers	1,174		
No. 3	Plastic bags/pieces	515		
No. 4	Caps/lids	338		
No. 5	Styrofoam	281		
No. 6	Paper bags	277		
No. 7	Plastic beverage bottles	266		
No. 8	Disposable cups	204		
No. 9	Beverage cans	195		
No. 10	Straws/stirrers	154		

Youth group Belmont V.O.I.C.E.S. took a moment after the cleanup to comment on what they liked about their day cleaning up Belmont Creek. Check out their <u>V.O.I.C.E.S video</u>

THANK YOU volunteers for taking time out of your Saturday to clean Belmont waterways. It looks like all your hard work is making a difference! **We Appreciate YOU!**

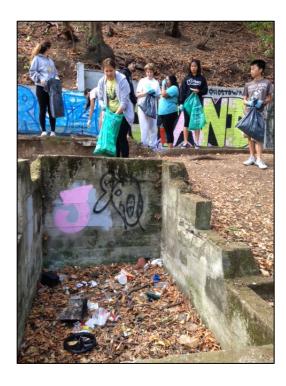

Parks and Recreation

V.O.I.C.E.S. - First Community Event of the Year

Belmont Parks and Recreation and the Belmont Library are proud to introduce the new members of V.O.I.C.E.S. Sixteen students from the Belmont area joined the community service based group during the September recruitment.

Each month, the students participate in volunteer projects throughout the Bay Area. Stay tuned for more photos and event updates from the students throughout the school year!

V.O.I.C.E.S. kicked off the year by taking part in Coastal Cleanup Day with Belmont Public Works Department. Saturday, September 20th, members met at Belmont City hall, gathered safety equipment and cleaned up Twin Pines Park and Creek. The team collected over 640 pieces of trash and enjoyed seeing the transformation, getting to know one another, and would like to encourage community members to help keep the park clean for future visitors.

Twin Pines & Community Center - New Look

This Tuesday, September 23rd, the Twin Pines Senior & Community Center received the final pieces of the Remodeling Project. New furniture! Guests to the center can now enjoy more ample seating, as well as a couple of cozy corners and a dedicated library corner. This completes the 2-year project undertaken by Parks & Recreation staff as well as the Senior Advisory Committee. We invite Belmont employees, Councilmembers and Commissioners to come check out our new space.

NDNU Homecoming Activates

From Notre Dame de Namur University:

NDNU 2014 Homecoming will be here before we know it and I want to personally invite you, your family, and friends to "come home" on Friday, October 3 and Saturday, October 4 for this special weekend. Notre Dame de Namur University has changed as it continues to grow. Homecoming is a perfect time for alumni to reunite with former classmates, faculty and staff.

Special activities have been planned for the entire university community. Have a glass of wine and hors d'oeuvres with a classmate as we showcase our <u>NDNU talent</u> on Friday night, or celebrate alumni milestone classess on Saturday night. Enjoy your classmates at our <u>Homecoming BBQ</u> lunch event while judging our first <u>Iron Chef Competition</u> where local fire and police departments battle it out on the grill. Learn about some of our alums and their businesses at the <u>Alumni Marketplace</u> and stay for an '<u>Ohana celebration</u>' as we cheer on our <u>Argo volleyball team</u> as they play against BYU Hawaii.

One of the highlights is the NDNU "Iron Chef" Cook-off

"NDNU Iron Chef BBQ Competition" between San Mateo County Police Chiefs and <u>Belmont</u> Firefighters as they battle it out on the grill!

Come home to celebrate NDNU and the exciting university it is today.

Sunday. October 5th Twin Pines Park. Belmont

Food for Thought

6th Annual Active San Mateo County Conference

For more information contact:

district2_supervisorcarolegroom@co.sanmateo.ca.us 650-363-4568

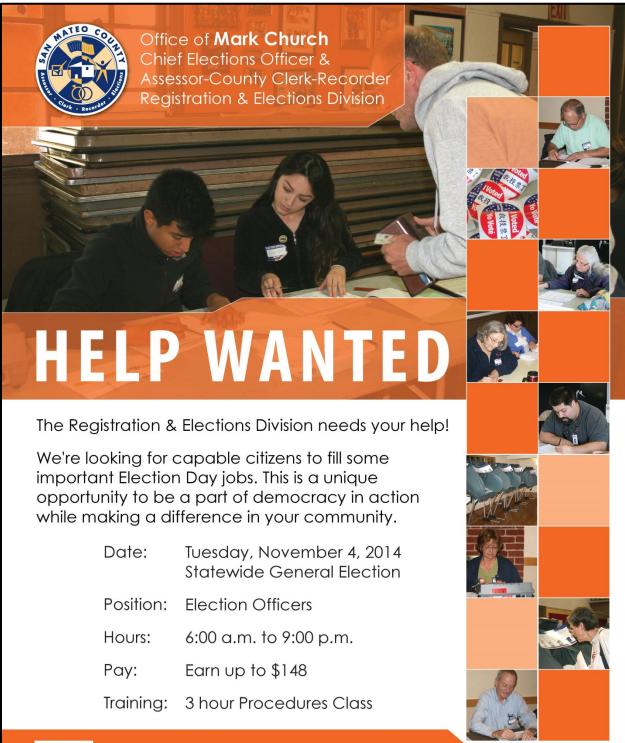

We're looking forward to our 6th Annual Active San Mateo County Conference, to be held on October 29, 2014 at 8:30 AM at the San Mateo Garden Center.

Active San Mateo County is an annual conference that brings together a broad cross-section of our community to discuss new strategies, techniques, and programs to make our public places desirable destinations that promote healthy living. In past years, the event has included keynote speakers, such as Richard Louv and Gil Penalosa, as well as workshops exploring the connections between urban planning, public health, and recreation.

This year's conference will center on being healthier through better eating, including the roles that community gardens, farmer's markets, nutrition, and better community planning can play. Mark your calendar and stay tuned for updates!

Caltrain Modernization Program

What is CalMod?

Modernizing the Caltrain Corridor

The Caltrain Modernization (CalMod) Program will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

CalMod - Electrification and the Future of Caltrain

CalMod includes the electrification of the existing Caltrain corridor between San Francisco and San Jose; the installation of a Communications Based Overlay Signal System Positive Train Control (CBOSS PTC), an advanced signal system that includes federally mandated safety improvements; and the replacement of Caltrain's diesel trains with high-performance electric trains called Electric Multiple Units.

Simply stated, for Peninsula commuters Caltrain will be modernized to provide more service to more stations, carry more riders, reduce greenhouse gas emissions on the corridor substantially and the system will be more cost-effective to operate.

The \$1.5 billion program is funded through a nine-party agreement that leverages local, regional and federal funding to match \$706 million in voterapproved high-speed rail bond revenues.

For more information about the CalMod Program, please check out the video.

What's happening now?

Seeking Public Feedback For New Electric Trains

Caltrain is asking the public to provide feedback and input on design details of its future fleet of electric trains, also called Electric Multiple Unit (EMU) trains.

When the railway is <u>electrified</u> as part of the <u>Caltrain Modernization Program</u> EMU trains will be procured toreplace approximately 75 percent of the current diesel fleet and eventually EMUs will replace the entire fleet operating between San Francisco and San Jose.

The rail agency is soliciting feedback from the public about how the new trains should be constructed to manage capacity on key issues such as seats/standees, bathrooms, and bikes on board.

To provide feedback, please complete this new electric train survey (SURVEY CLOSES 10/17/14):

www.caltrain.com/emusurvey.

Feedback from the public will be coupled with staff technical analysis to help inform the purchase of the new trains, once the project has been approved and environmentally cleared. Environmental clearance is scheduled for the end of 2014.

For more information about the program:

website: www.caltrain.com/emu email: caltrain.com/emu

phone: 650.508.6493

Advanced Signal System Installation Update

Caltrain continues to make progress on the installation of the advanced signal system (also called Communications Based Overlay Signal System Positive Train Control), a key component of the Caltrain Modernization Program. The advanced signal system, scheduled to be in-service by 2015, will equip the corridor from San Jose to San Francisco with

Earlier this month, the CBOSS PTC team reached a key milestone by completing 100 percent of the installation work related installing the fiber optic cable and wayside infrastructure between San Jose to the Dumbarton Spur in Redwood City. Work has progressed north of the Dumbarton Spur and current installation activity is occurring in the cities of San Carlos, Belmont, and San Mateo.

While much of the installation activities occur at night, on the Caltrain Right-of-Way, there are some day activities such as the installation of equipment on the trains. The CBOSS PTC team has almost completed full installation on the pilot trains and will move on to the rest of the fleet in the coming weeks. The onboard equipment will provide seamless communication between signals, trains, and dispatchers.

Once complete, the system will monitor and, if necessary, stop trains in the event that the engineer operating the train fails to heed the signals.

Finally, safety is the number one priority for the field crew and they now have over 200,000 hours of work without incident.

Visit the CBOSS PTC section of the Caltrain's website for further information.

CBOSS PTC Project Hotline: (650) 508-6499

CBOSS PTC Project Email: caltrainptc@samtrans.com

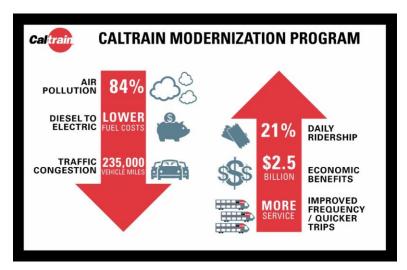

Benefitting the Bay Area

Operations and Environmental Improvements

Modernization will allow Caltrain to operate quieter, greener service that serves more riders at more stations. Increased capacity and improved service will help Caltrain meet increasing ridership demand and alleviate local and regional traffic congestion.

Economic Benefits

Modernization also creates regional job opportunities and other valuable economic benefits that are critical to the economic welfare of our region and state.

Draft EIR Update

The comment period for the Draft Environmental Impact Report on the Peninsula Corridor Electrification Project closed on April 29, 2014. The EIR team received over 200 comments on a range of topics and is preparing the Final EIR. The Final EIR is anticipated by the end of 2014.

For more information about the DEIR, please click here.

Construction, Installation and Maintenance: Sept. 27 to Oct. 3, 2014

Construction

There are no major construction projects at this time.

Installation

Communications Based Overlay Signal System (CBOSS) Positive Train Control (PTC) Project

The CBOSS PTC Project is an advanced signal system that will equip the corridor and trains with federally-mandated safety technology and will increase system capacity to help accommodate future ridership demand.

The project will monitor and, if necessary, control train movement in the event of human error. This will increase safety by:

- Eliminating the risk of train-to-train collisions.
- Reducing risk of potential derailments by enforcing speed limits.
- Providing additional safety for railroad workers on the tracks.
- Improving grade crossing performance to reduce gate downtime and improve local traffic circulation.

The CBOSS PTC Project is also a key component of the Caltrain Modernization Program, which will electrify the Caltrain Corridor by 2019. An electrified Caltrain will be cleaner and quieter and will upgrade the system to provide faster and/or more frequent service to more stations and riders.

To implement the project, Caltrain will be identifying utilities, digging a small trench and/or boring close to the tracks to install fiber optic cable. In order to maintain daytime train service, Caltrain will be performing some of this work at night.

Millbrae and Burlingame

Day work will occur September 29 – October 3 from 7 a.m. to 5 p.m. to identify utility lines and/or install conduit for fiber optic cable. Crews will work as quietly as possible.

Night work will also occur September 28 – October 2 from 8 p.m. to 6 a.m. Crews will be boring and/or digging a small trench to install conduit for fiber optic cable. Lights will be used in the area to help provide visibility. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

San Mateo, Belmont, San Carlos and Redwood City (north of the Dumbarton Spur)

Night work will occur September 29 – October 2 from 8 p.m. to 6 a.m. Crews will be boring and/or digging a small trench to install conduit for fiber optic cable. Lights will be used in the area to help provide visibility. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

Unincorporated San Mateo County

Day work will occur September 29 – October 3 from 7 a.m. to 5 p.m. Crews will be testing fiber optic cable. Crews will also prepare for and install a base station. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

Redwood City (south of the Dumbarton Spur), Atherton, Menlo Park, Mountain View, Sunnyvale, Santa Clara and San Jose

Day work will occur September 29 – October 3 from 7 a.m. to 5 p.m. Crews will be testing fiber optic cable. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

For more information, please call the dedicated outreach line at 650.508.6499; visit the website at www.caltrain.com/CBOSSPTC or email caltrainptc@samtrans.com.
